

Bauhaus

12" x 25" x 6"

This charming timepiece brings us back to one of the most popular and classic designs of the modern era. It is made in Germany by the finest craftsmen with all solid hardwoods. The glass is beveled and leaded in a simple Bauhaus, or Arts and Crafts design. The solid-brass trim has an elegant brushed finish. The eight-day movement chimes every quarter hour on extra long and rich sounding rods. This heirloom transforms an ordinary house into a home.
